

TL: TL-base = base transfer-learning surrogate · TL-Ptj = pretrain-then-joint · TL-E2E = end-to-end joint · TL-SPS = soft parameter sharing
 TL-MMD = domain adaptation (MMD) GP: GP-base = autoregressive multi-fidelity GP (MFGP)

GP-SV = sparse variational MFGP · GP-DKL = deep-kernel GP o, p: mean deficit to the best surrogate of each benchmark (lower is better)
